Bonim B'Yachad:

Building our Future Together

Congregation Emeth will celebrate forty years of Jewish living and learning in our community in the year 5776 (2016). We will mark this auspicious anniversary by supporting our first capital campaign.

You rely on Emeth to provide a Jewish community where we engage in life long learning, worship, social action and community while celebrating Jewish spiritual and cultural traditions with the guidance of our Rabbi.

We are relying on your generosity to build our future together and meet our goal to raise \$160,000 for a play area for our children with integrated covered patio; a Bimah that honors our Sanctuary; a "green" climate system for our building and significant reduction in our mortgage.

A Play Area for Our Children With Integrated Covered Patio/Sukkah

The largest growing segment of our new members is families with young children. As our religious school grows so does the need for a safe place for our children to play.

A covered patio will expand our space for outdoor luncheons and receptions and will serve as our sukkah.

The "Greening" of Emeth

A new roof of "green" energy efficient material

- Insulation in our attic to more efficiently heat and cool our building
- Solar voltaic panels to reduce the cost of maintaining a comfortable environment in our building

A Bimah That Honors Our Sanctuary-Our Spiritual Home

The sanctuary is a sacred space, the heart of our building, where we pray, learn; celebrate holidays, and share life cycle events. The bimah enhances the feeling that we are in a spiritual place.

It's time to replace the temporary Aron Kodesh (ark), Torah table, podiums and chairs on our bimah.

Significant Reduction in our Mortgage

Our mortgage is structured such that we repay some of the principle each month and whenever feasible we have restructured the terms of the loan to accelerate principle repayment.

Our original, total, long-term debt was \$945,000. By the end of 2015 our debt will be reduced to \$870,000 and restructured with the help of member participation.

The financial health of our congregation is tied to our ability to pay down this long-term debt.
